

Shithin

Week of March 26

Date

You were flexible this week. You helped with breaks.

You sat with a small group of children that were focused on a magnet tile activity for a long period of time. This was a good place for an educator to be.

You noticed the sign in sheet and counted the children.

Week of  
March 27

We went on a campus walk  
-You are good at remembering tasks like double checking the sign in sheet, info parents gave us etc.

-You helped in the cubby room, you held children's hands and kept them safe on the walk. You played with them and they loved that.
