→ I felt more confident today.

→ I got everything ready to go and we headed out on our walk.

→ The group was changed up a little bit. To talk some of the other children and the ones that were already on the walk with us, kept ~~to~~ talking about the trades building.

→ The walk went well, we had our picnic at the gardens again.

→ We had lots of fun in this big puddle ~~out~~ of mud that we found.

→ The children were nervous to get dirty. Worrying about getting their clothes and themselves

dirty dirty.

→ I walked right into the puddle and splashed around. The children warned me about getting my boots and pants dirty. I told them I like it.

→ Soon ~~at~~ a lot of them joined in.

→ Once we got back to the center I found out Noeleane had to go home (injured). So, suddenly the lunch time became a bit hectic. However, Ryleen was there and she helped. We had a good day though.

Feedback from Ravinder about walk.

→ She said the walk went really well. Just the children needed guiding and I did that. She did mention when we stop on the walk way, it would be good to get off and sit on the grass.
